YOUR SPRING SACK SUIT.

ITS FIT AND FITNESS.

You should have no trouble to find a fit in Kirschbaum or F. K. & Co's clothes. Where sizes are graded so finely and suits made for the short, the tall, the stout, the slim and for men of all figures and proportions, you can rest easy about the fit and think only of the fitness.

The quality of goods and tailoring are things you need not worry about. Every Kirschbaum or F. K. & Co's. suit is warranted, and whatever the price you pay you are sure of getting the best fabric and the best making in this country for the money. We stand back of every suit and the makers stand back of us.

But where the selection is so large you do need to think about fitness. Fitness to your appearance and complexion, fitness for your purpose. You want the most becoming, the most suitable suit. The Kirschbaum and F. K. & Co's. clothes have a dash and style, a

smart tailor effect that separates them from other ready made goods.

The single-breasted sack shown in the illustration is the most popular style for spring. It is made of fancy Worsted or Cheviot in neat patterns or mixtures—mostly gray and brown effects. You can also have it of blue or black Serge or Cheviot, black Thibet and soft finish Worsted.

PRICES, \$10.00 to \$22.50

Sunday was regular appointment day with Rev. Lowry at his post of duty. In the afternoon, church conference was held. Sunday was a pretty spring like day and it brought out many pretty lasses, but the lads all say it was the lasses that made the sunshine.

Miss Eunice Adams and three friends were out taking a ride on the backwater Sunday afternoon when their boat capsized and they were precipitated into the water. Most fortunately, however, the water was not deep or there might have been serious results; as it was, only a "shock-

ing fright" and some very pretty dainty dresses were soiled. Moral: Little girls should keep out of water until they learn to swim. Eh?

"He who has a thousand friends, Has never a one to spare— And he who has one enemy, Will find him everywhere."

Next to health, a true friend is the greatest gift on earth, and if there is anything better, it is more friends. It is due to our dearest and best friends that the flowers of our better nature expand, and the beautiful coloring becomes brilliant, stimulated by the genial warmth and sunshine of their influence. In our neighborhood a perfect harmony exists. Friends and neighbors all—it seems a united brotherhood. If one needs a friend, let him come to Rush Creek; if he need help, the benign hand of charity is extended. The most substantial farmers, the best of citizens, the most devoted of husbands, wives who "make bread as good as mother makes," the sweetest babes, the most dutiful sons and our daughters "are fair and comely." Last but not least, the hardest jokes; but in a kindly feeling of friendship, and taken good naturedly. All goes lovely as the chimes of wedding bells and Rush Creek is a good old place and, we "are glad we struck this globe."

Crystal needs a soap factory or some other kind of enterprise to give employment to the loungers around the village stores. We suggest a soap concern because the said loungers are inclined to a sitting posture and they could chew grease for the boiler without having to change their position or entailing any hard labor that would cause stiff joints or curvature of the spinal column. The only misery would be the giving up of that delightful habit of cigarette smoking while they chawed.

Thea Ferrell and family met with an accident while driving Sunday evening that might have resulted seriously, but in which, fortunately, no one was injured. The buggy was accidentally overturned and all the occupants thrown to the ground with considerable violence, but beyond a severe shaking up no damage was done. The team became frightened when the accident occurred

but was gotten under control by Mr. Ferrell before they had time to run.
